AMATEUR'S GUIDE IN HORTICULTURE AND Catalogue for Overseas 1950

The Reason Why... The SUTTON strains of Vegetable and Flower seeds are exported by us year after year to all countries of the world. Customers overseas, some from the remotest parts of the earth, repeat their orders as the seasons come round, and at home we are constantly asked to send parcels to friends abroad.

The reason for this ever-expanding and world-wide trade is the unremitting care and attention we give to the production of SUTTON'S SEEDS, making them in every way far in advance of other seeds and more suitable for varying climatic conditions. Added to this our Export Department is able to advise on the best varieties for particular localities and altitudes, to pack specially seeds for, or in transit through, the tropics and to comply with the importation requirements of the various countries.

We therefore invite you with every confidence to place your orders with us, being assured that you will receive seeds of unexcelled quality and that specialised attention will be given to your requirements.

Sutton's Flower Seeds

SUTTON'S ANTIRRHINUMS. (Snapdragons.)

For summer bedding the simplest course is to treat Antirrhinums as half-hardy annuals, sowing seed from January to March in pans or boxes filled with a light, well-drained compost. Seeds may also be sown in late summer, from which sowings the plants will generally bloom earlier than from a spring sowing.

SUTTON'S TRIUMPH VARIETIES.

This giant-flowered strain of Intermediate Antirrhinum carries long spikes of large flowers well above the foliage, the central spike being particularly sturdy. Height about 18 inches. (*Illustrated below.*)

(Foxglove)

Sutton's Excelsior Hybrids.

A distinctly new break in this old-fashioned English flower. Instead of the florets drooping on one side of the stem only, as in the ordinary type, they are carried all round the stem and are either horizontal or pointing upward so that the full effect of the wonderful markings and contrasting colourings of the blotches on the inside of the tube are clearly visible. These attractive markings, together with the wide colour range — from white, through cream, primrose, creamy pinks, rose pinks, deep pinks and purples—give a most striking colour effect not previously seen in Foxgloves. The plants are extremely vigorous and throw spikes from 5 to 6 feet in height

per packet, 40c.

Sutton's English Seeds for American Gardens

The accompanying copy of our Garden Seed Catalogue for 1950 we hope will be of interest, and we shall be pleased to receive your order in Reading if you prefer to send direct to us. We would mention, however, that our Resident Representative, Mr. G. H. Penson, P.O. Box 646, Glen Head, New York, carries a complete stock of the Flower Seeds catalogued, and also a good selection of Vegetable Seeds as indicated on the back of this leaflet. He is, of course, able to give you a quicker delivery than is possible from Reading, England.

As the Catalogue is priced in sterling we give the following conversion table which covers all expenses of importation and local delivery charges when seeds are ordered from Mr. Penson :

SUTTON'S PRIMULAS.

PRIMULA MALACOIDES. *Greenhouse annual.*

With the aid of a cold frame during the summer months and a cool greenhouse for the autumn and winter, free-flowering plants can be easily produced.

13068. **SUTTON'S FEARLESS** ♦Novelty. We are glad to be able to add yet another variety to our list of *Primula malacoides*, and we are confident it will prove as popular as the four new varieties which we introduced last year. Sutton's Fearless is a large-flowered rich rosy-crimson variety of great vigour and free-flowering habit. We consider it to be one of the finest varieties we have ever introduced per packet, 7/6 and 5/-
13070. **Sutton's Attraction.** (New.) Award of Merit R.H.S. The fascinating greenish-yellow eye in the centre of each bloom serves to light up the surrounding lavender petals, which deepen to lavender-pink at the finely serrated edges per packet, 5/- and 3/6
13072. **Sutton's Enchantment.** (New.) Award of Merit R.H.S. A striking variety, bearing large purple-mauve flowers with a purple-brown zone surrounding the golden-brown centres. The thick sturdy spikes are freely produced per packet, 5/- and 3/6
13074. **Sutton's Rosita.** (New.) The glowing rosy-mauve flowers of this variety approach in size those of a *Primula obconica*. The petals are heavily blotched with maroon, making a striking contrast to the bright yellow centre per packet, 5/- and 3/6
13095. **Sutton's Lilac Queen (Double).** (New.) The soft lilac fully double flowers are borne gracefully on long pedicels. A fully developed plant gives the impression of a ball of lilac-coloured bloom per packet, 5/- and 3/6
13082. **Sutton's Mauve Queen.** The stoutly petalled large rich mauve flowers are widely overlapping per packet, 2/6 and 1/9
13084. **Sutton's Pink Sensation.** Clear bright pink flowers, measuring an inch in diameter per packet, 2/6 and 1/9
13088. **Sutton's Queen of Whites.** Plants covered with densely petalled pure white flowers about an inch in diameter per packet, 2/6 and 1/9

PRIMULA SINENSIS. *Greenhouse annual.*

SUTTON'S SINGLE PRIMULAS.

12931. **Sutton's Royal White.** Large pure ivory-white flowers; very free-flowering per packet, 3/6 and 2/6
12933. **Sutton's Reading Pink.** Dainty pink flowers, elegantly fringed per packet, 3/6 and 2/6
12941. **Sutton's Reading Blue.** One of the best blue *Primulas*; fine upright trusses of flowers per packet, 3/6 and 2/6
12948. **Sutton's Superb Mixed,** including the best of the older varieties per packet, 3/6 and 2/6
12963. **Sutton's Giant Mixed.** Including a wide range of beautiful colours. Flowers of immense size and great substance per packet, 5/- and 3/6

SUTTON'S STAR PRIMULAS.

12965. **Sutton's Special Hybrids Star.** (New.) These hybrids comprise a wide diversity of colours not usually associated with *Primulas* per packet, 5/- and 3/6
12975. **Sutton's Fire King Star.** (New.) The masses of bright velvety crimson flowers, flushed brilliant scarlet without trace of blue, are borne on a profusion of freely branching elegant stems per packet, 5/- and 3/6
12976. **Sutton's Guardsman Star.** (New.) The true star counterpart of the well-known variety, 'Dazzler.' From April or early May sowings, large branching elegant plants may be flowered by Christmas when their vivid orange-scarlet flowers will be most appreciated per packet, 5/- and 3/6
12977. **Sutton's Enchantress Star.** (New.) A rich salmon-pink variety. The flowers are very freely borne on graceful arching stems and slender pedicels per pkt., 5/- and 3/6
12978. **Sutton's Gaiety Star.** (New.) An appealing shade of soft pink surrounding a clear golden eye. A plant of great beauty and charm for the winter per packet, 5/- and 3/6
12980. **Sutton's Giant Meteor Star.** (New.) The substantial clear-cut, symmetrical blooms are freely borne on long stems, the graceful habit of the original Star type being maintained. The glorious colouring is completely new, being orange-salmon overlaid orange-scarlet per packet, 5/- and 3/6
12985. **Sutton's Beacon Star.** Flowers dazzling orange-scarlet, suffused with bright salmon per packet, 2/6
12987. **Sutton's Coral Pink Star.** Similar in colour to our Coral Pink Single *Primula* per packet, 2/6

SUTTON'S
GIANT DOUBLE
ZINNIA.

SUTTON'S ZINNIAS.

Half-hardy annuals.

Valuable bedding and border subject, remaining in bloom for a long period. Formerly Zinnias were considered by some too stiff and formal for general garden purposes, but this cannot be said of our Giant Double strain, the massive heads of which are fairly loosely arranged.

Sutton's Giant Double Zinnia. Immense double flowers of gorgeous colouring, the petals being more loosely arranged than in our Double strain. Height 2½ feet. (*Illustrated.*)

A wonderful dwarf type of Broad Bean, attaining a height of 9 to 12 inches only when grown in the open ground ; plants freely branched. For culture in frames or pits this Bean has proved indispensable on account of its very dwarf habit

per $\frac{1}{2}$ -pint, 1/7 ; pint, 3/-

COPYRIGHT S. & S.

CLIMBING FRENCH BEANS.

The Climbing French Beans have all the merits of Dwarf French Beans, the pods being extremely tender and of delicious flavour, but the climbing habit enables the plants to bear continuously till quite late in the season, thus producing a much more abundant crop than is obtainable from plants of the Dwarf section. This type of Bean also does splendidly under glass from autumn to spring.

5452. SUTTON'S EARLIEST OF ALL.

Comes ready for use in July and continues in bearing for a long period ; pods fleshy, succulent, and almost stringless ... per $\frac{1}{2}$ -pint, 1/10

RUNNER BEANS.

5502. SUTTON'S PRIZEWINNER (newest selection).

When we first introduced this remarkable Bean it created quite a sensation among horticulturists, as at that time no Bean approached it for length of pod, cropping capacity and table quality. It is still the longest-podded variety in cultivation, specimens measuring up to 24 inches in length having been recorded. As the beans hang in large clusters an enormous crop is produced. (Seed very scarce) per pkt., 2/6 and 3/6

VARIETIES OF THE 'GIANT' TYPE FOR SPRING SOWING ONLY.

We are pleased to be able once again to offer the complete range of our famous 'Giant' types of Cauliflower which were so popular prior to the war years. This section forms a complete succession for cutting from August to December.

6441. **SUTTON'S EARLY GIANT.**

The earliest of the large-headed autumn Cauliflowers, normally coming into use early in September. The heads are beautifully white and delicate in flavour
per packet, 1/6 and 2/6

6446. **SUTTON'S AUTUMN MAMMOTH.**

An excellent succession to Sutton's Early Giant. Comes into use in September and October
per packet, 1/6 and 2/6

6448. **SUTTON'S DWARF MONARCH.**

A dwarf-growing Cauliflower maturing about October, which makes a good succession to Sutton's Autumn Mammoth. The large heads are of splendid quality ... per packet, 1/6 and 2/6

6449. **SUTTON'S LONGSTANDER.**

A remarkable type of Cauliflower, coming into use during October–November. Sutton's Longstander is dwarf in habit, but its great merit is the wonderful white solid heads ... per packet, 1/6 and 2/6

6450. **SUTTON'S SUPERLATIVE PROTECTING.**

A strong-growing late Cauliflower, producing large white solid heads which are unusually well-protected by the incurving foliage. It is later than Sutton's Autumn Mammoth, Sutton's Dwarf Monarch, and Sutton's Longstander, and should extend the season for cutting fine white-headed Cauliflower during the months of November and December
per packet, 1/6 and 2/6

6453. **Autumn Giant. (Early stock.)**

Sutton's Seed Potatoes

CERTIFIED SCOTCH AND IRISH STOCKS.

ALL POTATO PRICES ARE GOVERNMENT CONTROLLED AND STRICTLY NET.

- PLEASE USE THE SEPARATE ORDER FORM FOR SEED POTATOES. FILL IN NAME AND ADDRESS AND FORWARDING INSTRUCTIONS.

Potatoes will in most cases be despatched and invoiced separately from general seed orders. We shall commence forwarding as soon as stocks arrive, and continue to execute in rotation as weather and other conditions permit.

SUBSTITUTES.—Should the stock of any variety ordered be exhausted, we shall, to save delay, send in its place the most suitable substitute, unless instructed to the contrary.

SUTTON'S FIRST-EARLY SEED POTATOES.

SUTTON'S EPICURE.

One of the most dependable early varieties in cultivation, and a great favourite with allotment holders. A sturdy grower suitable for all soils. Recovers from frost better than any other early variety. Seldom affected with Dry Rot. Tubers round
per 14 lb. 5/-; 28 lb. 9/2; $\frac{1}{2}$ -cwt. 17/6; cwt. 30/2

* HOME GUARD.

By reason of its merits this variety has achieved great popularity within a short time. It is early maturing and an excellent cropper. The shallow-eyed oval tubers have the great advantage of showing considerable resistance to Dry Rot
per 14 lb. 5/-; 28 lb. 9/2; $\frac{1}{2}$ -cwt. 17/6; cwt. 30/2

* ARRAN PILOT.

Another popular kidney variety, outstanding for its weight-producing properties. The tubers grow to a large size
per 14 lb. 5/-; 28 lb. 9/2; $\frac{1}{2}$ -cwt. 17/6; cwt. 30/2

* ULSTER CHIEFTAIN.

The outstanding features of this variety are earliness and quality. Tubers oval-shaped with white flesh, floury in texture. The short haulm makes it a good variety for frame culture
per 14 lb. 5/-; 28 lb. 9/2; $\frac{1}{2}$ -cwt. 17/6; cwt. 30/2

* DI VERNON.

A high quality early variety for good soils. Tubers kidney-shaped; skin white, splashed purple. It is very important to tray the seed up immediately on arrival, as the variety is susceptible to Dry Rot
per 14 lb. 5/-; 28 lb. 9/2; $\frac{1}{2}$ -cwt. 17/6; cwt. 30/2

EXPRESS (SHARPE).

A popular white kidney; flesh pale yellow. Of first-rate quality. Recommended for medium and heavy soils
per 14 lb. 5/-; 28 lb. 9/2; $\frac{1}{2}$ -cwt. 17/6; cwt. 30/2

DUKE OF YORK.

The thick oblong-shaped tubers are of perfect form. Strongly recommended to customers who desire a variety of high cooking quality with yellow flesh. A favourite in Scotland for early digging
per 14 lb. 5/-; 28 lb. 9/2; $\frac{1}{2}$ -cwt. 17/6; cwt. 30/2

ECLIPSE.

A heavy-cropping white-fleshed kidney, maturing a little later than others in this section. More resistant to Dry Rot than most earlies
per 14 lb. 4/10; 28 lb. 8/10; $\frac{1}{2}$ -cwt. 16/10; cwt. 29/2

SUTTON'S SECOND-EARLY SEED POTATOES.

* SUTTON'S OLYMPIC.

We regret that, owing to an unfavourable growing season, we are unable to offer Olympic this year, but hope to have a good supply available next season.

* SUTTON'S BEN LOMOND.

A short kidney-shaped Potato producing a prolific yield of shallow-eyed tubers of splendid cooking quality. A good variety for medium or heavy soils
per 14 lb. 4/4; 28 lb. 7/10; $\frac{1}{2}$ -cwt. 14/10; cwt. 24/11

* DUNBAR ROVER.

A fine oval-shaped variety of good cooking quality; dry and floury. One of the best cropping sorts in the second-early section; excellent for light and medium soils
per 14 lb. 4/10; 28 lb. 8/10; $\frac{1}{2}$ -cwt. 16/10; cwt. 29/2

* ULSTER ENSIGN.

A Northern Irish variety of recent introduction. Tubers resemble King Edward VII in shape and colour, but are earlier and immune from Wart Disease. A splendid coloured variety for exhibition. Stock seed
per 14 lb. 6/3; 28 lb. 12/-; $\frac{1}{2}$ -cwt. 23/-; cwt. 42/-

* BALLYDOON.

White-skinned oval variety. Almost first-early
per 14 lb. 5/-; 28 lb. 9/2; $\frac{1}{2}$ -cwt. 17/6; cwt. 30/2

BRITISH QUEEN.

Tubers oval to kidney shape; white flesh; a good cooker
per 14 lb. 4/4; 28 lb. 7/10; $\frac{1}{2}$ -cwt. 14/10; cwt. 24/11

SPECIAL NOTICE REGARDING DRY ROT

Certain varieties of Potatoes, notably Arran Pilot, Di Vernon and Express are liable to suffer from Dry Rot and other diseases after delivery. Every care is taken by us in the selection and handling of stocks, but we can give no guarantee against wastage. To minimise the risk of loss, we advise customers to set up seed tubers to sprout as soon as received, placing them in a cool, light, airy situation, protected from frost when necessary.

SEED POTATO PRICES ARE CARRIAGE PAID IN GREAT BRITAIN.

SUTTON'S MAINCROP SEED POTATOES.

* SUTTON'S BELLAHOUSTON.

An excellent all-round maincrop variety with tubers of round to oval shape. Skin and flesh white, cooks mealy. A good yielder on all types of soil. The foliage is most distinct, owing to its erect habit
per 14 lb. 4/6; 28 lb. 8/2; ½-cwt. 15/6; cwt. 25/5

* DUKE OF KENT (SUTTON'S).

A very heavy cropping variety for late use. Tubers oval in shape, of good size and remarkably uniform
per 14 lb. 4/6; 28 lb. 8/2; ½-cwt. 15/6; cwt. 25/5

* SUTTON'S ABUNDANCE.

An early maincrop noted for its high cooking quality. Flesh white and floury
per 14 lb. 4/4; 28 lb. 7/10; ½-cwt. 14/10; cwt. 24/11

* MAJESTIC.

The most popular Potato of the present day. Yields heavily on all types of soil, and is ready for digging as soon as the first-earlies are finished. White kidney-shaped tubers with shallow eyes; flesh white. Readily attains good size
per 14 lb. 4/10; 28 lb. 8/10; ½-cwt. 16/10; cwt. 29/2

* ARRAN BANNER.

One of the heaviest and most dependable croppers in cultivation. Tubers round, mainly of large size, skin and flesh white. Does well on most soils
per 14 lb. 4/10; 28 lb. 8/10; ½-cwt. 16/10; cwt. 29/2

* ARRAN PEAK.

An excellent all-round maincrop variety. Yields a good crop of nice even-sized oval tubers. Skin yellowish, sometimes netted. Flesh firm, white and of very good quality. Will keep well until late in the season
per 14 lb. 4/10; 28 lb. 8/10; ½-cwt. 16/10; cwt. 29/2

* GLADSTONE.

Oval to kidney variety, skin splashed pink around eyes. A popular maincrop of fine cooking quality
per 14 lb. 4/6; 28 lb. 8/2; ½-cwt. 15/6; cwt. 25/5

* DUNBAR STANDARD.

The best white kidney Potato for exhibition. Eyes very shallow. A late-maturing kind of superb quality
per 14 lb. 4/6; 28 lb. 8/2; ½-cwt. 15/6; cwt. 25/5

* GREAT SCOT.

Well-known white round variety which has been in continuous demand for many years
per 14 lb. 4/6; 28 lb. 8/2; ½-cwt. 15/6; cwt. 25/5

KING EDWARD VII.

An old kidney-shaped variety which is still popular in many parts of the country. It does best on medium or fairly heavy soils
per 14 lb. 4/10; 28 lb. 8/10; ½-cwt. 16/10; cwt. 29/2

RED KING, or RED KING EDWARD.

A colour variation of the ordinary King Edward. The tubers are similar in shape and quality, but the skin is almost entirely red
per 14 lb. 4/10; 28 lb. 8/10; ½-cwt. 16/10; cwt. 29/2

* ARRAN CONSUL.

This variety succeeds well on light or poor soils. Tubers round to oval; keeps well. Foliage of rather open habit
per 14 lb. 4/6; 28 lb. 8/2; ½-cwt. 15/6; cwt. 25/5

* REDSKIN.

A good cropping pink-skinned late variety. Flesh white and floury. Cooks well
per 14 lb. 4/6; 28 lb. 8/2; ½-cwt. 15/6; cwt. 25/5

* KERR'S PINK.

A strong-growing late variety. Tubers round; skin pink. Suitable for medium and heavy soils, and moist districts. A favourite in the North
per 14 lb. 4/6; 28 lb. 8/2; ½-cwt. 15/6; cwt. 25/5

* GOLDEN WONDER.

Russet-brown kidney of unsurpassed quality. Should be grown on good soil
per 14 lb. 4/10; 28 lb. 8/10; ½-cwt. 16/10; cwt. 29/2

UP-TO-DATE.

An old variety for which there is still a demand. White oval tubers of excellent form with shallow eyes. Suffers less from the effects of drought than other kinds and for this reason remains a popular Potato for the overseas market
per 14 lb. 4/10; 28 lb. 8/10; ½-cwt. 16/10; cwt. 29/2

SALAD POTATO.

FIR APPLE, PINK. Long pink-skinned tubers per lb. 9d.

**The varieties indicated by an asterisk are immune from Wart Disease. The responsibility of planting only certified stocks of immune varieties of Potatoes, where necessary, rests with the cultivator.*

The Seed Potatoes named have been certified in accordance with the provisions of The Seeds (Amendment) Regulations, 1944, and the number of the Certificate, together with other particulars required by the regulations, will be found on the ticket placed inside each bag of Potatoes supplied by us.

per lb., 3/6; 28 lb., 94/6; 112 lb., 376/-
(The cwt. rate applies to 56 lb. and upwards.)

If Grass Seeds are ordered by measure, we shall generally send at the rate of 28 lb. per bushel.

QUANTITY TO SOW.—For the formation of new Lawns we recommend sowing 2 ounces of seed per square yard, or 5 cwt. per acre, to ensure a close turf in the shortest possible period. Where time is not of the greatest importance, however, a seeding of 1 or 1½ ounces per square yard should eventually produce a sound turf. A thick sowing greatly contributes to success by rapidly covering the ground with grass, thus suppressing indigenous weeds. For renovating, 1 ounce of seed per square yard should suffice, unless the turf is very thin.

When sending a remittance for Lawn Grass seeds please include the cost of bag as follows:—
5-7 lb., 1/3; 8-14 lb., 1/9; 15-28 lb., 3/9

It is our practice to refund or credit the full charge for bags when returned, as announced in our Terms of Business and Conditions of Sale on page 52.

BEAUTIFUL LAWNS IN THE GARDENS OF OUR CUSTOMER, COLONEL R. SHAND-KYDD, 'OLD RECTORY,' HARPSDEN (Gardener, Mr. E. J. Warman).

DRESSINGS FOR TURF.

SUTTON'S 'GREENSWARD.'

Approximately 50% organic and contains 5% Sulphate of Iron.

The best form of COMPLETE GRASS FERTILISER for top-dressing established turf or for incorporating with the soil before sowing grass seeds. It contains the essentials for ensuring a free and healthy growth of grass, and the constituents have been so arranged that the preparation may be safely applied to turf at almost any period of the year.

FOR TOP-DRESSING. Apply at the rate of 2 ounces per square yard. During the growing period the use of Sutton's 'Greensward' Fertiliser may be employed as occasion requires. When the weather is hot and dry, put on the Fertiliser in the evening and well water in.

FOR NEW GROUND. Rake or harrow in the Fertiliser at the rate of 3 ounces per square yard about a week before sowing grass seeds

per 7 lb., 4/6; 14 lb., 7/6; 28 lb., 13/-; 56 lb., 23/-;
112 lb., 39/6; 10 cwt. at 39/3 per cwt.;
20 cwt. at 39/- per cwt. Prices net.

SUTTON'S TURF FERTILISER.

A good general dressing combining both organic and inorganic elements. Apply 2 ounces per square yard to existing turf, or 4 ounces per square yard for a new seed-bed

per 7 lb., 3/3; 14 lb., 5/9; 28 lb., 10/6; 56 lb., 19/-;
112 lb., 34/6; 10 cwt. at 32/6 per cwt.

NITROGENOUS ORGANIC DRESSING.

For top-dressing existing turf use 4 ounces per square yard; for new ground rake in up to 8 ounces per square yard

per 7 lb., 3/6; 14 lb., 5/-; 28 lb., 8/6; 56 lb., 15/-; 112 lb., 27/6

SUTTON'S WINTER DRESSING.

While it does not force the growth of the herbage, it promotes healthy root development. Apply 4 to 8 ounces per square yard

per 28 lb., 9/-; 56 lb., 15/6; 112 lb., 28/6
10 cwt. at 27/6 per cwt.; 20 cwt. at 25/6 per cwt.

SUTTON'S MOSS DESTROYER.

Acts speedily on the moss and, while temporarily scorching the grass, afterwards stimulates it. Apply 2 ounces per square yard in dry weather

Garden Fertilisers

SUTTON'S A1 GARDEN FERTILISER.

Unsurpassed for
general garden use.

A few days in advance of sowing seeds, or planting out, well rake the Fertiliser into the soil, allowing 3 to 4 ounces per square yard, or 7 lb. per square pole. Supplement this, during the period of growth, by a top-dressing at the rate of 1 to 2 ounces per square yard, choosing showery weather. The top-dressing may be either raked in close round the plants or applied in liquid form, using 1 ounce of the Fertiliser to 1 gallon of water.

SUTTON'S 'SIMPLEX' FERTILISER.

Registered Trade Mark.

General plant food.
Specially recommended
for greenhouse work.

Before planting apply 1 ounce per square yard. When used with potting soil about 3 lb. should be mixed with each cwt. As a top-dressing, the artificial should be applied on the old principle of 'little and often'; a teaspoonful to a 5-inch pot, or a dessertspoonful to a 7-inch or 8-inch pot is sufficient for a single application. Before applying the fertiliser and watering in, gently stir the surface of the soil with a sharp pointed stick; this will assist the absorption of the fertiliser into the soil and prevent clogging. For use in liquid form 1 ounce should be stirred in each gallon of water.

SUTTON'S TOMATO BASE FERTILISER.

SUTTON'S TOMATO TOP-DRESSING FERTILISER.

For potting, add to each cwt. or barrowload of compost 16 ounces (or one 48-size potful) of **Sutton's Tomato Base Fertiliser**. No other dressing is necessary until the first truss of fruit is set, when **Sutton's Tomato Top-Dressing Fertiliser** should be applied at the rate of half-ounce to the surface soil of each 9-inch pot, every ten days. For Tomatoes planted in the bed, 8 to 12 ounces per square yard of **Sutton's Tomato Base Fertiliser** should be well forked into the soil, and after the fruit is set a dressing of 2 ounces per square yard of **Sutton's Tomato Top-Dressing Fertiliser** may be given at intervals while the fruit is swelling.

STERILISED PEAT.

Greatly superior to leaf-soil, and by sterilising the peat a valuable plant food is ensured, as free from contamination as it is possible to make it. We use this peat in large quantities in our own glasshouses and grounds, and can confidently recommend it, especially where leaf-soil is difficult to obtain, or trouble from soil pests and diseases has been experienced. This peat should not be confused with fibrous bracken peat which is of little use for general potting purposes.

* **H.E.T.P. Compound, Richards'**. Although no signature under the Poisons and Pharmacy Act is required for this preparation, it is of a poisonous nature and care must be taken when using it. The inhalation of the vapour, mist or spray may have harmful consequences and may also be dangerous if allowed to come into contact with skin or clothing. Full instructions on bottle.

P Under the regulations of the Poisons and Pharmacy Act preparations marked 'P' in the above list can be supplied by Registered Post or Rail only to professional gardeners, farmers, market growers, nurserymen, etc., who require them for their trade or profession. An order signed by the user is necessary, giving particulars of the purpose for which the poison is required. Customers who are known to us can, however, obtain these goods by collecting them from our premises and signing our Poisons Register.

EXPORT TERMS OF BUSINESS AND CONDITIONS OF SALE.

Prepayment.—Orders for goods to be exported, whether received from abroad or from persons residing in Great Britain, must be accompanied by a remittance for the Seeds, Packing, Insurance, and Postage, unless satisfactory arrangements be made for the settlement of our invoices in this country on the goods being despatched. An addition of ten per cent. to the value of the Seeds, as estimated by our current Catalogue, should be made for expenses, excepting for AIR despatch which calls for increased charges.

Any surplus will be placed to the credit of the customer's account, or returned as may be desired.

We are prepared on request to send SEEDS C.O.D. (by parcel post only) to places where a 'Cash on Delivery' service is in operation in connection with the British Post Office. Except in approved cases, such orders must be accompanied by a remittance for one third of the value, with a minimum deposit of 10/-.

In calculating the cost of postage the following particulars will be of service :—

100 packets of assorted Flower Seeds weigh approximately $1\frac{1}{2}$ lb.

100 packets of assorted Flower and Vegetable Seeds, not including Peas and Beans, weigh approximately $3\frac{1}{2}$ lb. (Peas and Beans weigh on an average 2 lb. per quart.)

Remittances.—Except for the Countries mentioned below, remittances should be in the form of Bank Drafts, Cheques on a bank in England, International Money Orders, or British Postal Orders. 'Sutton & Sons Ltd.' is the proper title for filling in Cheques or obtaining Money Orders. Cheques, Money Orders and Postal Orders should be crossed 'Westminster Bank, Ltd., Reading.' On any cheque drawn on a local bank 2/6 must be added to cover collection charges.

U.S.A. customers are asked to send us a Bank Draft or their personal Cheque, either direct or to our Representative, Mr. G. H. Penson, Box 646, Glen Head, N.Y. An International Money Order is also an acceptable method of direct payment.

CANADA and NEWFOUNDLAND, EUROPEAN, CENTRAL and SOUTH AMERICAN countries, BELGIAN, DUTCH, FRENCH, PORTUGUESE and SPANISH possessions, EGYPT, PALESTINE, SUDAN, TRANS-JORDAN and IRAN. We advise customers in these countries either to send International Money Orders or to consult their Bankers before remitting, as all payments have to be made from 'special' or 'registered' accounts.
